

# Tool & Equipment Management Module

» Track, schedule and cost all maintenance activities

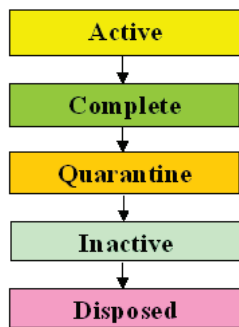

## Scope:

A comprehensive production tool and capital equipment management system that allows for the automation of maintenance and repair work orders. Plan general maintenance, calibration, equipment overhauls, and record results.

## Advantages:

Using the uniPoint Tool & Equipment module will help transform your company from a reactive to a proactive preventative maintenance model. This module allows for the separate tracking of planned maintenance versus unplanned repair events, and offers detailed scheduling and costing analysis.

### Process Flow:

## Key Features:

- » Setup Equipment Library
- » Automate Planned Maintenance
- » Estimate vs. Actual Costing
- » Understand Downtime Costs

## Analysis:

Accounting							
Hrs	Estimate	Actual	Costs	Maintenance	Repair	Total	# Tasks
Total Downtime Hrs:	10.00	3.00	Labor Cost:	\$150.00	\$0.00	\$150.00	
			Downtime Cost:	\$225.00	\$0.00	\$225.00	
Total Maint Lab. Hrs:	2.00	3.00	Material Cost:	\$50.00	\$0.00	\$50.00	# Maint Tasks: 1
Total Repair Lab. Hrs:	0.00	0.00	Service Cost:	\$0.00	\$1,000.00	\$1,000.00	# Repair Tasks: 1
Total Labor Hrs:	2.00	3.00	Total Cost:	\$425.00	\$1,000.00	\$1,425.00	Total # of Tasks: 2

Tool & Equip Mgmt

Equipment ID: 30002

Status: Active

Equipment Name: L&J 100 Ton Press

Details:

Acquisition Date: 4/3/2002 Model Year: 2002

Serial No: 7879797-AJB

Manufacturer: L&J

Owner: Company

Acquisition: Purchased Vendor: KINSUP

Assigned To: Dept Dept: Machining

Class: Equipment Category: Press

Master Location: A-11 Current Loc: A-11

Equip. Meter:

Financial:

Cost: \$300,000.00 Current Value: \$100,000.00

Downtime \$/Hr: \$75.00

PD: Invoice:

Disposal Date: Disposal Value: \$0.00
